UNITED STATES SECURITIES AND EXCHANGE COMMISSION WASHINGTON, D.C. 20549

FORM 8-K

CURRENT REPORT Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

Date of Report (Date of earliest event reported): September 19, 2013

GLOBALSTAR, INC.

(Exact name of registrant as specified in its charter)

Delaware (State or Other Jurisdiction of Incorporation)

001-33117 (Commission File Number) 41-2116508 (IRS Employer Identification No.)

300 Holiday Square Blvd. Covington, LA (Address of Principal Executive Offices) 70433 (Zip Code)

Registrant's telephone number, including area code: (985) 335-1500 N/A (Former Name or Former Address, if Changed Since Last Report)

Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions:

□ Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)

□ Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)

□ Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))

□ Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Item 7.01 Regulation FD Disclosure.

James Monroe III, Chairman and Chief Executive Officer of Globalstar, Inc. (the "Company"), will speak at the Imperial Capital Global Opportunities Conference being held at the Waldorf Astoria in New York, New York on September 19, 2013. A press release and the presentation materials are furnished as Exhibits 99.1 and 99.2 to this Form 8-K and will be available on the company's website.

The information in this Current Report on Form 8-K and the Exhibits attached hereto is furnished pursuant to the rules and regulations of the Securities and Exchange Commission and shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934 (the "Exchange Act") or otherwise subject to the liabilities of that section, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933 or the Exchange Act, except as expressly set forth by specific reference in such a filing.

Item 9.01 Financial Statements and Exhibits.

(d) Exhibits.

- 99.1 Press release dated September 19, 2013
- 99.2 Presentation materials dated September 19, 2013

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

GLOBALSTAR, INC.

/s/ James Monroe III

James Monroe III Chairman and Chief Executive Officer

Date: September 19, 2013

MEDIA ALERT

For Immediate Release

Globalstar to Participate in Imperial Capital's 2013 Global Opportunities Conference

Covington, LA, -- (September 19, 2013) – Globalstar, Inc. (OTCBB: GSAT) announced that it will participate in Imperial Capital's Global Opportunities Conference in New York, NY. Jay Monroe, CEO of Globalstar, Inc. will present at 9:30am EDT on Thursday, September 19, 2013.

A copy of the presentation will be made available in a Form 8-K with the Securities and Exchange Commission.

About Globalstar, Inc.

Globalstar is a leading provider of mobile satellite voice and data services. Globalstar offers these services to commercial customers and recreational consumers in more than 120 countries around the world. The Company's products include mobile and fixed satellite telephones, simplex and duplex satellite data modems, the SPOT family of mobile satellite consumer products including the SPOT Satellite GPS Messenger and flexible airtime service packages. Many land based and maritime industries benefit from Globalstar with increased productivity from remote areas beyond cellular and landline service. Global customer segments include: oil and gas, government, mining, forestry, commercial fishing, utilities, military, transportation, heavy construction, emergency preparedness, and business continuity as well as individual recreational consumers. Globalstar data solutions are ideal for various asset and personal tracking, data monitoring and SCADA applications. All SPOT products described in Globalstar or SPOT LLC press releases are the products of Spot LLC, which is not affiliated in any manner with Spot Image of Toulouse, France or Spot Image Corporation of Chantilly, Virginia.

Safe Harbor Language

This presentation contains certain statements that are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements are based on current expectations and assumptions that are subject to risks and uncertainties which may cause actual results to differ materially from the forward-looking statements. Forward-looking statements, such as the statements regarding our ability to develop and expand our business, our anticipated capital spending (including for future satellite procurements and launches), our ability to manage costs, our ability to exploit and respond to technological innovation, the effects of laws and regulations (including tax laws and regulations) and legal and regulatory changes, the opportunities for strategic business combinations and the effects of consolidation in our industry on us and our competitors, our anticipated future revenues, our anticipated financial resources, our expectations about the future launches and operational performance of our satellites (including their projected operational lives), the expected strength of and growth prospects for our existing customers and the markets that we serve, commercial acceptance of our new Simplex products, including our SPOT family of products, problems relating to the ground-based facilities operated by us or by independent gateway operators, worldwide economic, geopolitical and business conditions and risks associated with doing business on a global basis and other statements contained in this presentation regarding matters that are not historical facts, involve predictions.

Any forward-looking statements made in this presentation speak as of the date made and are not guarantees of future performance. Actual results or developments may differ materially from the expectations expressed or implied in the forward-looking statements, and we undertake no obligation to update any such statements. Additional information on factors that could influence our financial results is included in our filings with the Securities and Exchange Commission, including our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K.

Globalstart

Recent Accomplishments / Highlights

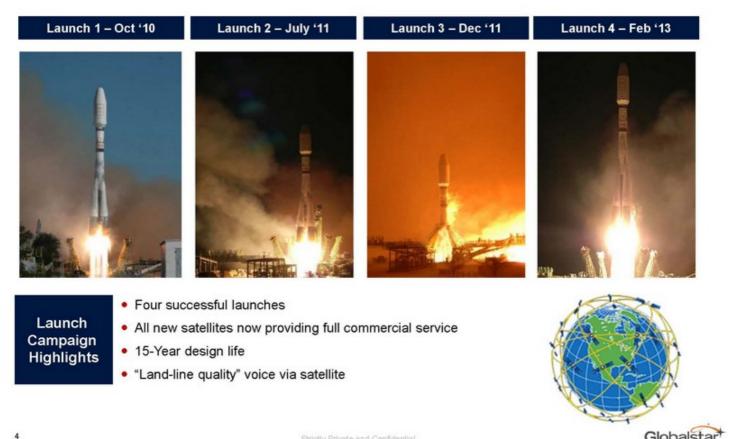

3

	Duplex Restoration & New Product Rollout	 With all second-gen satellites in service, Duplex coverage has continued to improve materially and has been fully restored 							
-		 In Q2 2013, Duplex minutes of use increased 41% over the prior year period 							
V		 In May 2013, SPOT Global Phone, the world's first consumer focused satellite handset, was released through retail distribution channel. In July, Globalstar released SPOT Gen3, offering a smaller, feature-rich SPOT family device. 							
		 Four additional products to be launched over the coming quarters – designed to expand addressable market through lower cost and enhanced functionality 							
	Successful Debt Refinancing & Financial Resurgence	 Successfully exchanged 5.75% Notes on May 							
1		 Closed Amended and Restated COFACE Facility Agreement in August 							
M		 Amendment provides material improvement to debt repayment schedule and financial covenants 							
		 Secured \$85 million equity investment and backstop from Thermo, Globalstar's principal shareholder 							
	FCC Proceeding	 On September 9, 2013, FCC circulated Globalstar's requested Notice of Proposed Rulemaking to individual commissioners for full consideration 							
V		 Await release of NPRM regarding the authorization to offer terrestrial mobile broadband services over Globalstar's spectrum 							
		 Unique ability to offer host of wireless protocols including Wi-Fi-like terrestrial low power service ("TLPS") in addition to LTE 							

Globalstar's Successful Launch Campaign

Globalstar is the first MSS provider to successfully launch a second-generation constellation of LEO satellites, years ahead of its competition.

Globalstar

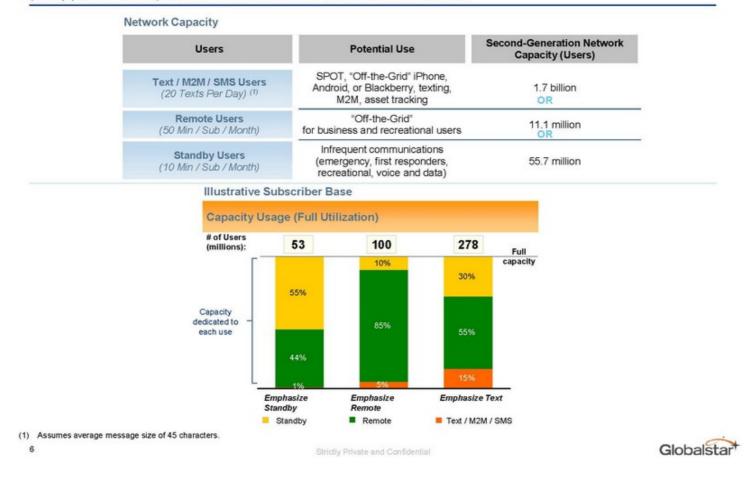

Globalstar's Addressable Market

5

Globalstar Capacity is Fungible Across User Types

Globalstar's Second-Generation constellation and network have the capacity to accommodate 34 billion text messages, M2M transmissions or other small-bit messages or 19 million voice or data minutes per day. Globalstar's network architecture (bent-pipe, all IP-based) allows for a flexible and cost efficient use of the network.

Broadening MSS Relevance

Revolutionizing MSS

\$100 MASS MARKET SOLUTION

2 BILLION PEOPLE OUT OF CELLULAR COVERAGE

8

Consumers around the globe will depend on GLOBALSTAR for their communication needs

Globalstar

Distribution Strategy to Support Consumer Take-Up

- Historically, the mobile satellite industry has relied on indirect sales channels such as dealers / resellers to distribute
 products to predominately enterprise users
- Globalstar revolutionized the sector with its push into the consumer segment
 - Now with multiple consumer products, Globalstar has expanded to 10,000 points of distribution primarily in North America, and continues to grow this network

5.75% Notes Exchange

On May 20th, 2013, Globalstar successfully completed a refinancing of its 5.75% notes by entering into an Exchange Agreement with the holders, resolving the April 1, 2013 put

- Thermo invested \$25 million into Globalstar to facilitate the transaction and an additional \$5 million for general corporate purposes
- \$13.5 million was paid to exchanging holders at close and \$6.3 million was deposited with indenture trustee to purchase the remaining notes for non-participating holders
- 14.4% of New Notes were equitized on July 19th 2013. Holders may elect to convert up to an additional 15% on March 20th, 2014 in cash or equity, at the company's option, leaving behind approximately \$38 million of 8% Convertible New Notes at that time
- New Notes continue to incur 5.75% cash interest with an additional 2.25% PIK interest
- New Notes have a put feature on April 1, 2018 and April 1, 2023 with a stated maturity of April 1, 2028
- Initial conversion price of the New Notes at \$0.80 (currently at \$0.75) with customary antidilution and reset provisions
- By year-end 2013, the New Notes will receive guarantees by certain Company subsidiaries
- Stock price appreciation of 3x since 5.75% Notes exchange

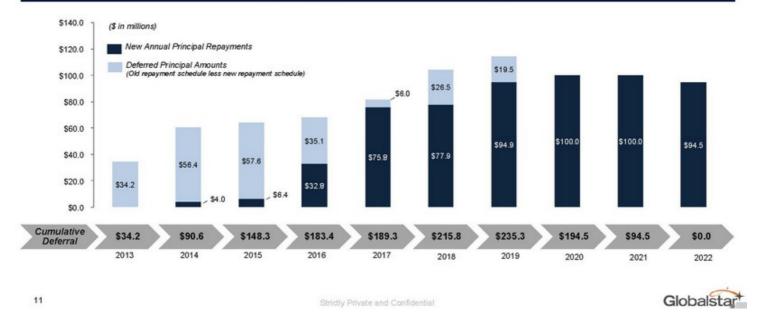

COFACE Facility Successfully Amended

Facility Amendment reduces near-term principal obligations and materially improves financial covenants

- Consent Agreement executed May 20, 2013 and Amended and Restated Facility Agreement effective August 22, 2013
- First principal repayment date will be deferred to December 2014 and no principal payment above \$5 million until June 2016
- Total Thermo investment and backstop of \$85 million \$25 million funded in connection with exchange transaction and an incremental \$26.5 million invested to date
- · Final maturity date extended to 2022

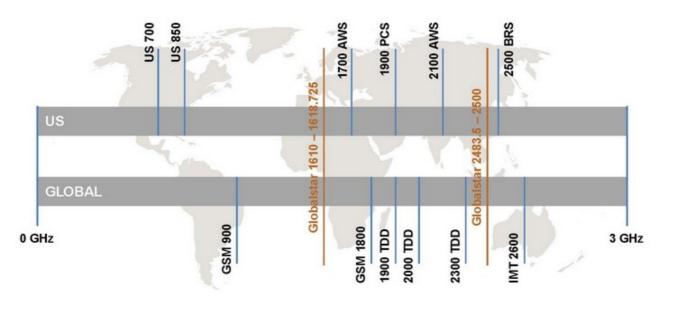

Annual Principal Repayments & Deferred Principal Amounts

Globalstar Worldwide Spectrum Allocation

Globalstar's spectrum allocation is the world's best model for globally harmonized spectrum, representing the only globally harmonized spectrum position of this size in the world.

- Globalstar holds worldwide authority from the ITU for 25.225 MHz of MSS spectrum in the 1610 1618.725 MHz and 2483.5 – 2500 MHz bands, totaling 150 billion MHz-POPs⁽¹⁾
- The Company's allocated spectrum in these bands is well positioned within the range of currently deployed U.S. and international commercial wireless allocations

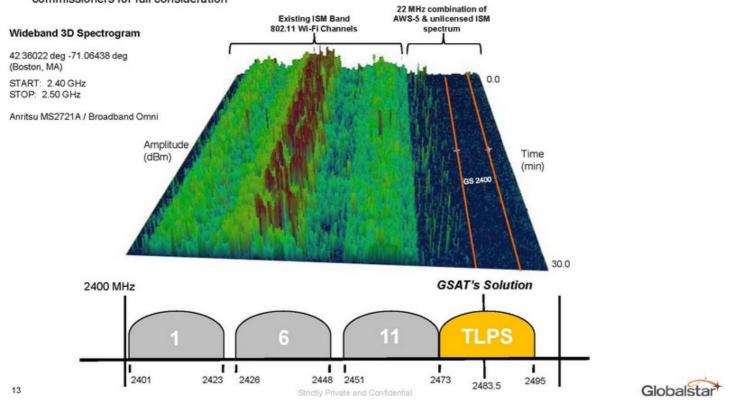

(1) Represents the product of an approximate covered population of six billion and 25.225 MHz.

12

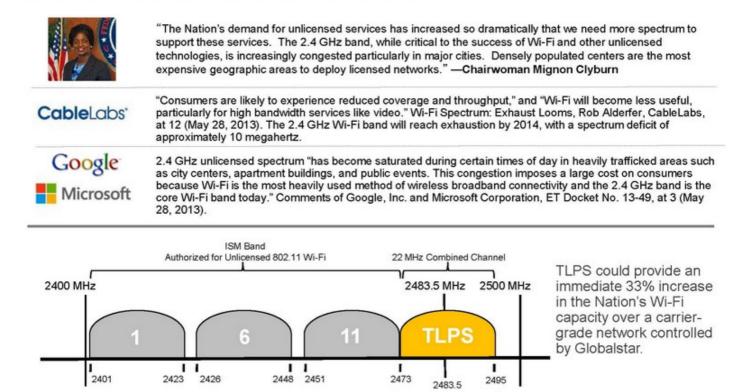

Globalstar's Spectrum Plan

- · Near-Term Plan: Obtain terrestrial authority for both uplink and downlink band (19.275 MHz) including TLPS and LTE
- Long-Term Plan: Add Uplink spectrum within the AWS-5 Terrestrial license for Low Power Uplink services between 1610 and 1617.775 MHz
- On September 9, 2013, the FCC circulated Globalstar's requested Notice of Proposed Rulemaking to individual commissioners for full consideration

TLPS

TLPS provides immediate solution to acute "Wi-Fi Traffic Jam" — 2.4 GHZ unlicensed spectrum is exhausted without an alternative solution

Globalstar Terrestrial Band(AWS-5)

Globalstar

Historical Financial Summary

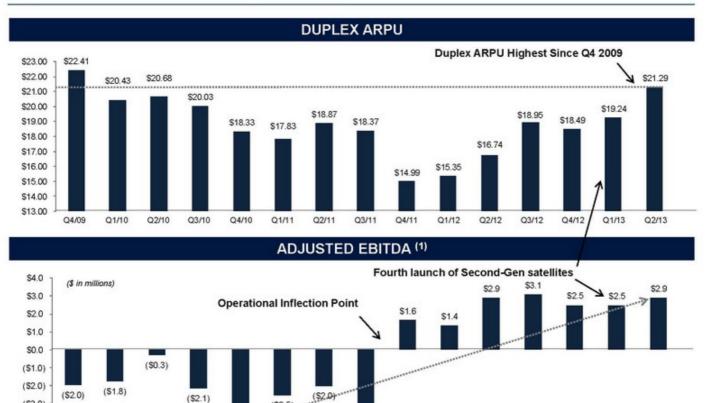

- Post-Thermo acquisition in 2003, and up through 2006, after which constellation issues presented challenges. Globalstar operated a high growth and high margin business
- · Globalstar was able to leverage the highest quality voice service and least expensive equipment and service offering in the MSS industry
- Thermo initiated a strong management discipline, focused on product innovation and cost controls and successfully grew the Company to \$136.7 million and \$33.8 million of Revenue and Adjusted EBITDA by 2006, respectively
- From 2007-2011, Globalstar's financial was materially affected by the constellation performance issues and the Thales delays - annual Adjusted EBITDA was as low as negative \$14.2 million (2008)

15

Recent Financial Performance

(1) Adjusted to exclude non-cash compensation expense, reduction in the value of assets, foreign exchange (gains)/losses, R&D costs associated with the development of new consumer products and certain other one-time charges. See reconciliation to GAAP Net loss on Annex B.

Globalstar Value Drivers

17

☑	Operational Improvements & Second-Gen Benefits	 Debt refinancing provides financial flexibility and eliminates near-term financial uncertainty 								
		 Second generation system provides significant cost benefits and network performance enhancements years before our competitors With the final satellites placed into service in August, Globalstar achieves full Duplex service restoration 								
									 Poised for continued growth in profitability 	
			Breakthrough Mass Market Products	 Successfully launched two products in 2013 to date; four additional products set for launch in coming quarters – innovations expand addressable market, enhance functionality, lower costs 						
 10,000 retail points of distribution – only satellite company to have successfully penetrated mass consumer market – now selling the new SPOT Global Phone and SPOT Gen3 through this existing distribution network 										
Further expansion into new distribution networks and vertical markets										
∕	Valuable Spectrum Assets	 Circulation announcement represents material progress with regard to Globalstar's terrestrial spectrum liberalization plan 								
		 Non-replicable 25 MHz of globally-harmonized spectrum with 19.275 MHz targeted for licensed terrestrial broadband use in the U.S. 								
		 Unique spectrum position allows for rapid deployment of 22 MHz of 2.4 GHz spectrum for consumer broadband service to relieve existing Wi-Fi congestion
